# Hello! I'm Meena

Classical Feng Shui Master

I've always been fascinated with the design of any space, whether it's a home, office, retail space, or outdoor landscape.

This along with 38 combined years of managing interior spaces and travelling constantly, gave me the opportunity to immerse myself in different cultures around the world.

Being fluent in five languages helps me to understand the depth of my clients' concerns and needs.

A 'perpetual student,' I'm always looking to expand my personal growth, which includes Energy Clearing guidance from Rishikesh, India, Landmark Forum, Vipassana Meditation Retreat, and Certification as a Reiki Practitioner.

With all my years of passion & experience, I found Feng Shui to be a beneficial tool to help me align with my goals, and I now wish to bring the same for you while incorporating spirituality into Feng Shui.

# WHO IS THIS FOR?

This guide is for anyone who understands that the energy you give out to the universe attracts the energy that comes back to you.

I want you to attract and strengthen the flow of wealth and prosperity. This guide offers a few quick tips to help you start manifesting the wealth magnetism energy you already have.

These tips will only scratch the surface of what Feng Shui can offer. If you want to amplify the energy in your space and attract more wealth Chi, there are many other Feng Shui Cures you can add in your home or office.

# 1

Respect and store your wallet or purse properly. Do not leave it on the ground, or throw it, etc. If you treat your wallet or purse with respect, it will return your gratitude back to you tenfold.

# 2

Your wallet or purse is about your financial health. So keep the focus on finances, and do not store personal photos in there. This can lead to a mix of energies, confusing the intentions you desire.

### 3

Only keep 2 to 3 credit cards in your wallet at a time, as they represent borrowed money. This borrowed money refers to debt, or money that is not technically yours. This can take away from your abundance of wealth magnetism.

### 4

Keep crystals that represent abundance. Aventurine, Jade, Peridot, or Citrine help to attract abundance. Charging your stones on a Full Moon and carrying them in your wallet will start shifting the energy around your finances.

# 5

Did you know that the color of your wallet or purse can impact your ability to attract wealth too? If you want to know the recommended color based on your date of birth, please submit an email request to:

**info@momentumfengshui.com**  
with a short message and you'll receive a follow up email to obtain your Personal Trigram.

## **Your Personal Trigram report consists of:**

- Your essence colours; Your power colour to wear when doing presentations, going for job interviews, or for important meetings. This includes the best color for your wallet or purse to support your finances.
- Your optimal “personal best” direction. This is the best location to support Prosperity and Great Fame when selecting the setup for your best directions at your desk, sitting, and sleeping positions.
- Your Qualities are outlined as per the Trigram and Direction Group you belong to.
- Your Personal Trigram is your Personal Blueprint and is based on your gender and date of birth. It is used to determine your compatibility with the space as well as your most auspicious direction, and directions to avoid.
